Automatic Redaction of Search Terms

e-Redact was used to remove sensitive information from a sample Terms & Conditions file. In this test the 4-Page sample Terms & Conditions document was redacted first of all using traditional techniques.

We then redacted the same information using the e-Redact Search Term functionality. **This automatically removed the same information from the source file in just 57 Seconds flat, compared with the manual file processing time of 15 minutes and 25 seconds!**

Click the link (<http://www.e-redact.co.uk/File1-Original-Sample-Terms-and-Conditions.pdf>) to view the sample Terms & Conditions file. In this test we will remove the company name, "MatInfo" and compare the results below.

Manual Redaction Test:

Stage	Time
Print File	0 min 45 secs
Manually Redact Content	13 min 22 secs
Check Redaction Content	2 min 30 secs
Re-Scan Physical Document	0 min 48 secs
	15 min 25 secs Total Time

Manually redacting the file takes **94% longer** than it would using e-Redact Search Terms.
